

## Summary of costs

When you buy a home through shared ownership, you enter into a shared ownership lease. The lease is a legal agreement between you (the 'leaseholder') and the landlord. It sets out the rights and responsibilities of both parties.

Before committing to buy a shared ownership property, you should ensure you take independent legal and financial advice.

This summary of costs document is to help you decide if shared ownership is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference.

It does not form part of the lease. You should carefully consider the information and the accompanying lease, and discuss any issues with your solicitor before signing the lease.

Failure to pay your rent or service charge or your mortgage could mean your house is at risk of repossession.

Examples and figures provided in this summary of costs document are correct at the time of issue but will change over time in accordance with changes in house prices and the terms of the shared ownership lease.

The monthly payments to the landlord will be reviewed annually. The figures in this document will only apply to the first year of the lease.
